## Helpful Tips

- ▶ Use only high-quality rollers and brushes for the best finish.
- ▶ Mix different paint colors in separate buckets to ensure color integrity.
- ▶ Do not stop painting in the middle of a wall for any length of time. End at natural breaks for consistent color and coating.
- ▶ When "cutting in" (painting along edges with brush), paint far enough from edge so roller strokes cover brush strokes. Cut in 3 - or 4- ft. increments at a time, then roll.
- ▶ Roll in W pattern, 3-ft. by 3-ft. wide, then use horizontal strokes to fill in unpainted areas.
- ▶ Painter's tape should be removed when paint is fully dry to minimize peeling.
